1 The short version

Dynasty Bois — 12 teams, Superflex, half-point PPR, no tight-end premium — is the league you have been in longest (since 2022) and trade in most. Everything below is for this league only; the six-league reports have the rest.

YOUR ROSTER

The youngest, most rookie-heavy and most athletic roster in the league. Average age 23.9 (#1 youngest of 12; league average 26.3), 15 2026 rookies of 31 players, #1 of 12 on the combine composite. FantasyCalc values it #5 of 12 today (52,717), and you own 15 of the league's 2027–29 picks (3 firsts).

YOUR TRADING

Last of 14 Bois traders, and the rank doesn't depend on how it's measured. 43–63 in context, -17.6k (-13.0k on value alone, -1,261 lineup points); #10–#14 on every single measure. The damage is concentrated: 5–20 when your roster was contending (-16.9k), and 11–25 against ThomasH7 across 40 trades (-11,014).

YOUR ACTIVITY **2.3 times the league's moves.** Per season: 24.6 trades, 15.2 waiver claims, 36.2 free-agent adds and 49.4 drops, against 14.8, 5.8, 12.6 and 19.5 for league-mates — though your pace has fallen every year since 2022.

YOUR DROPS AND PICKUPS **Your cuts hold up here.** 0.5% of your Bois drops became top-150 players within a year (league 1.7%); 3.7% of your pickups became top-150 assets (league 3.1%).

YOUR RESULTS **Winning seasons early, losing seasons since.** 2022: 9 wins, finished 4th, 2023: 9 wins, finished 6th, 2024: 4 wins, finished 10th, 2025: 4 wins, finished 11th, 2026: 1 win, finished 8th (regular season; 2026 to date). No Bois titles for you — andyburris won 2021–23 and EvanVieth 2024–25.

8 What to change and what to keep in Bois

From the Trade Playbook, judged in context. The Bois positives are real but modest next to the negatives.

Five things to do differently

CHANGE **Stop trading from a contending position in Bois.** When your Bois roster was in the top third you went 5–20 (-16.9k); league-mates in the same spot win 53%.

CHANGE **Stop buying last season's starters and aging veterans in Bois.** Last season's starters as the headline: 4–14 (-21.8k); veterans past the age cliff 8–16 (-11.5k) — league-mates win 50% of those.

CHANGE **Trade less with ThomasH7 and the Bois's top traders.** ThomasH7: 40 trades, 11–25, -11,014. Top-three Bois traders as partners: 3–8 (-9.0k).

CHANGE **Get the best player when you consolidate in Bois.** You get the best asset in only 34% of your Bois trades, among the lowest in the league (EvanVieth 62%, Metzgerchef 66%).

CHANGE **Stop paying up in Bois.** Bold bets in Bois: 7–12, -22.0k. Buying players whose value had just dropped: 7–12 (-11.0k).

Five things to keep doing

KEEP **Keep trading quarterbacks in Superflex.** Headline QB trades in Bois: 8–10 but +8.4k — Jordan Love (+5,170) and C.J. Stroud (+4,998) are two of your best trades anywhere.

KEEP **Keep buying young players and rookies in Bois.** Headline players 24 or younger: 7–5 (+3.4k); rookies 3–4 (+4.9k).

KEEP **Keep buying risers in Bois.** Players whose value had risen 20%+: 5–4 (+5.7k), against 7–12 (-11.0k) for fallers.

KEEP **Keep your Bois roster discipline.** Your Bois drops turn into top-150 players less often than the league's (0.5% vs 1.7%), unlike in Awesome (12% vs 4%).

KEEP **Keep trading from the middle and in May–June in Bois — modestly.** Middle-of-the-pack Bois trades: 18–24 (+4.7k); May–June Bois trades 10–8 (+3.8k). These are your only positive Bois trading situations, and the edges are small.

M **Method**

- Rosters, picks and records pulled from Sleeper on 22 September 2026; history replays every Bois transaction since the 2021 startup.
- Values: FantasyCalc in Dynasty Bois settings for today's rosters (credit: fantasycalc.com); DynastyProcess monthly values for history and trades. Picks in trades are valued by slot (trimmed average of the players taken within two picks of it), never by the player chosen.
- Trades are judged in context: value today plus, for a contending team, the lineup points gained or lost in the next 12 months (half for a middle team, none for a rebuilding one). Full method in the Trade Ledger.
- Comparisons are with the other Bois managers in the same seasons.
